PROFESSIONAL SUMMARY

PGDM candidate specializing in Operations & Supply Chain Management at FIIB with a Mechanical Engineering background and experience in data analysis, market research, and cross-functional coordination. Skilled in Excel-based analysis, KPI tracking, inventory and supplier performance, logistics costs, and demand forecasting, with working knowledge of Power BI and Python. Adept at converting data into actionable business insights.

EDUCATION

PGDM – Operations & Supply Chain Management | FIIB, New Delhi *2025 – 2027*

CGPA: *[6.69]* | Relevant Coursework: Service Operations Management, TQM & Six Sigma, Channel Management & Distribution Strategy

B.Tech – Mechanical Engineering | Amity University, Uttar Pradesh *2015 – 2019*

CGPA: *[5.77]*

WORK EXPERIENCE

Business Development Executive | Gautam Solar Private Limited *Nov 2021 – Apr 2022*

- Reduced requirement-to-proposal turnaround time by ~20% by coordinating cross-functionally with client, engineering, and procurement teams on solar project solutions spanning 100 kW–2 MW in capacity.
- Delivered 10+ techno-commercial proposals — including pricing documents, presentations, and compliance reports — for 100 kW–2 MW solar projects, supporting the full client-facing sales cycle.
- Contributed to an approximate 25% reduction in project costs by supporting solution validation, client follow-ups, proposal discussions, and lead generation.

KEY PROJECTS / INTERNSHIPS

Market Research Intern | Kantar *May 2026 – Jul 2026*

- Generated business insights for a live PVR Advertisement Effectiveness Study by analyzing consumer and operational data collected via Kantar's digital survey platform.
- Proposed an AI-driven audience-measurement solution concept, improving structured data collection and reporting efficiency for the research team.

Corporate Mentorship Program – FMCG Supply Chain Analysis | FIIB

- Delivered actionable recommendations for operational decision-making by analyzing FMCG SKU, inventory, logistics-cost, and supplier-performance data in Excel.

Operations KPI Dashboard | FIIB – Academic Project

- Built an interactive KPI dashboard using Excel to analyze operational performance, identify process gaps, and track key performance indicators.
- Cleaned and analyzed operational data to identify performance trends, exceptions, and areas requiring managerial attention.
- Translated data findings into actionable recommendations for process improvement and operational decision-making.

KEY ACHIEVEMENTS

- Contributed to an approximate 25% cost reduction in techno-commercial proposals for 100 kW–2 MW solar projects at Gautam Solar Pvt. Ltd.
- Proposed an AI-driven audience-measurement solution concept during a live client study (PVR Advertisement Effectiveness Study) at Kantar.
- Led a 3-member team to independently design, build, and test a working footstep power-generator prototype converting kinetic energy into electricity.

POSITION OF RESPONSIBILITY / EXTRA-CURRICULAR

Volunteer Researcher | Believe in the Invisible – Social Internship Program *Jan 2026 (15 days)*

- Advanced disability-inclusion awareness by conducting research and documentation on invisible disabilities; supported policy and grant research and maintained structured activity records.
- Prepared awareness and communication materials for students, workplaces, and communities.
